World leader in secured transaction systems

INGENICO 710-16

Land Line

Ingenico Group is a worldwide company which designs, manufactures and markets secure electronic payment terminals and secure payment systems for traditional and internet based merchants.

The INGENICO 710-16 payment terminal is based on proven Ingenico UNICAPT™ multi-application architecture which implements secure fire walls between applications, enabling several secure sensitive applications to reside and run in a single payment terminal.
